

# REALIZING THE RIGHT TO FOOD AND NUTRITION: THE ROLE OF CFS

**8.30 - 9:30  
FRIDAY  
11.OCT.2013**

**AUSTRIA ROOM, FAO  
HEADQUARTERS,  
ROME**

How can we work with sustainable and diverse agricultural practices to provide nutritious diets available to all? Learn from first-hand accounts from around the globe about the nutritional challenges of communities and their solutions. Practitioners will provide recommendations to work from a rights-based approach to sustainably ensure nutrition security for all, enhancing local food systems that make sense to food producers and deliver nutritious food to consumers. CFS is the most inclusive policy forum to develop food and nutrition security policies, and all actors should work with policy makers to define the best solutions to improve nutrition.

## **GUESTS WILL INCLUDE:**

**Professor Olivier De Schutter**,  
UN Special Rapporteur on the right to  
food (video message)
